

► **GAS MIXER**

KM 20-ECO

Made in Germany

Product of

**Specifically designed mixer for beverage dispense applications.
It provides 1 or 2 pre-set gas blends of carbon dioxide (CO₂) and / or nitrogen (N₂)
used for pressurisation of beverage dispense systems, such as beer kegs.**

Mixing range

- prevents over-carbonation (saving time, product and money)
- optimum adjustment of blend settings to the specific beverage
- avoids need for multiple pre-mix stocks (saving costs)
- easy handling, blends are factory set and tamper proof
- pneumatic operating principle, no electrical connections required
- fail safe design (unit shuts down on failure of either gas supply)
- robust, compact design
- fully interchangeable with other systems available on the market
